# OUR GUARANTEE

## <2 HOUR RESPONSE TIMES

We have always just taken care of our customers quickly. In healthcare, every minute counts and that just translated in to the way we take care of customers. As time progressed, we realized, this is really what matters to our customers and to medical professionals. That's why we respond to **every customer inquiry in under two hours**. Whether it's a question about a product, a technical issue, or guidance on use, we know that fast answers can make all the difference for caregivers and patients alike. Even when a solution takes longer, you'll never be left waiting—because timely communication is part of our promise.

## <24 HOUR SHIPPING

Speed matters as much as quality. We started getting asked more and more if items were in stock and if we could ship today. This prompted a deeper conversation and this program is the result. Our **Less Than 24-Hour Ship Program** ensures that our most popular products are always in stock and ready to ship within a day. No delays, no waiting—because in healthcare, every second counts. From hospitals to surgery centers, regardless of facility size, our products are on their way fast, giving caregivers the tools they need when they need them.

## MEDASSURED QUALITY AND COMPLIANCE

Quality in healthcare isn't optional—it's essential. Over time, the requirements have become greater, and we understand why, for patient safety and caregiver peace of mind. Every AcralMed product is designed to our **MedAssured quality standards**, ensuring glove-friendly edges, no cavities to trap contaminants, and materials that resist rust and corrosion. Before every product leaves our facility, we ensure it meets this Med Assured standard, or we will make it right. We take **FDA UDI compliance seriously**, so every item is fully traceable, safe, and ready for the most demanding healthcare environments. Because patients deserve nothing less.

## MADE IN AMERICA

This whole organization was started in Americas Midwest with a focus on down home values. We can't change that, nor do we want to. That is why we are proud to say our products are **Made in America, by Americans, with American materials**. Every tool, every component, every step of production happens right here at home. It's more than pride—it's accountability, craftsmanship, and a commitment to supporting U.S. caregivers with products you can trust.

## IMPROVING LIFE

At AcralMed, our mission goes beyond products. We recognize that every product we design has the ability to impact a life. We're here to **improve life**—for caregivers, for patients, and for everyone who depends on safe, reliable healthcare every day. Even our co-workers and team, they want to get ahead and we want them to get ahead as a result of their connection with AcralMed. Every design choice, every process, every interaction is about making care easier, safer, and more effective. And together — **we ARE improving life.**

# STAINLESS STEEL TABLES

A flat surface impervious to infection supported by 2 or 4 legs, used to hold instruments in the operating room.

Improving life.

# STAINLESS STEEL TABLES

## THE ACRALMED TABLE DIFFERENCE.

### REVEALED EDGE

Our tables have an 1 1/2" revealed edge. This greatly enhances the rigidity of the top and shelf. The more material you turn down, the stronger the edge will be. What does that mean for you? The edge of your table is stronger so it will stand up to use in the OR better.

### MATERIAL THICKNESS

AcralMed Tables are 16 gauge construction. That means the top and shelf are constructed of 16 gauge (0.0625") material instead of 18 gauge (0.05"). That is 25% thicker material! What does that mean for you? Less deflection of the top when you place heavy items on it.

### REINFORCING SUPPORTS

Welded in reinforcing supports under the top and shelf of any table longer than 4' with sound dampening cushion to prevent vibration of the top during transport.

### SQUARE LEGS

Many customers ask, why square instead of round? The square leg has more surface for welding the shelf and top to the leg. 1" Square tubing also has 25% more actual stainless steel material in it than 1" round tube.

### CASTER UPGRADE

Are you tired of seeing rust in your Operating Room? We can help! Now all our instrument tables can be upgraded with our trademarked **sayno2rust®** casters. These are durable, easy to clean casters with soft-gripped non-marking tread. Available with brake and all swivel wheels. Simply add the item numbers below as a line item on your purchase order and **sayno2rust®!**

# STAINLESS STEEL TABLES

## HEIGHT ADJUSTABLE OVER O.R. TABLES

Tables designed to straddle the O.R. Table for use during cases. They adjust in height from 36" to 56" to accommodate the height of the O.R. Table. They are fully welded construction, with no exposed bolts or protrusions on the top to puncture the drape. Handle removes and stores inside the lower leg if needed. Can be operated from either end. All exposed surfaces are of stainless steel construction. Reinforcing channel under top to provide extremely good rigidity. Top material is 14 gauge. Rolls on 4" premium casters, 2 have top brake to secure in place. Can also just be used as an ergonomic back table that can be adjusted in height.

- > **No more punctured drapes**
- > **Easy to clean**
- > **Ease of mobility and locking in place**
- > **Ergonomic for reduced body fatigue**

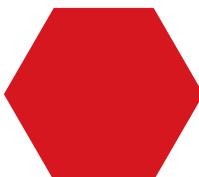

TBL5030	20"W x 36"L x 36-56"H

## CENTRAL STERILE INSTRUMENT WRAPPING STATION

This stainless steel instrument wrapping station has extra large plastic bins. With the stainless steel top and rack for wrapping instruments in sterile wrap, this table is everything you need. Ergonomic 35" work height and heavy duty 4" caster that lock in place ensure this table will last for many years. Standard size is 32" x 60" x 35"high. Can be easily adjusted in size to meet your needs.

- > **Sturdy work style table design.**
- > **Removable bins for easy cleaning and reloading instruments.**
- > **Easy to move but can still lock in place with locking casters**

TBL5096	32"D x 60"L x 34"H
---------	--------------------

# STAINLESS STEEL TABLES

## WORK TABLES

These work tables are designed for working on with much more strength than standard instrument tables. A great addition to any O.R., Central Sterile Supply, Laboratory or Pharmacy. The top is comprised of 14 gauge material and a reinforcing channel on the underside to prevent deflection. Supported by 1.5" 16 gauge stainless steel square legs make it very sturdy. Table can be configured with either leg levelers or 4" casters that allow the table to be locked in place during use. Ships fully assembled and ready to use.

- › **Made exclusively for the medical industry with glove friendly edges and no cavities to harbor bacteria**
- › **2" revealed edge with return to create a very sturdy table edge**
- › **Available with:**
  - 4" caster, two swivel locking, two swivel
  - Leg levelers that adjust in height to compensate for uneven floor substrates
  - With lower shelf for additional storage
  - With H-brace for extra clearance around base

# STAINLESS STEEL TABLES

## TWO-TIER BACK TABLES

This two tier back table makes a great addition to any surgical suite, especially where larger cases are performed and floor space is tight. Constructed of 16 gauge stainless steel, with 1 1/2" square legs makes this an extremely sturdy table. Top shelf has 16" clearance to top of table. The 10 degree tilt on the upper shelf makes it easy to view instruments that are on the upper level.

- › Available in 3 different sizes
- › 4" locking casters on front 2 legs
- › 30" depth allows for extra placement of instruments

### CASTERS

Are you tired of seeing rust on casters in your Operating Room? Our [sayno2rust®](#) casters are standard on our Two-Tier Back Tables. In addition, these wheels are very easy to change with standard tools. They will make your O.R. run smoother and make your equipment last longer. [Improving life.](#)

MYS752	20"W x 25"H Tray Size

### PROVEN DESIGN

Low profile feet slide easily under O.R. Table and hold stand in place.

### MATERIAL

Constructed of #304 stainless steel and all seams are fully welded. Brass inserts offer easy height adjustment.

### CASTERS

Are you tired of seeing rust on casters in your Operating Room? Our sayno2rust® casters are standard on our Mayo Stands. They are non-marking neoprene twin wheel casters. In addition, these wheels are very easy to change with standard tools. They will make your O.R. run smoother and make your equipment last longer. **Improving life.**

# sayno2rust.®

Removable **tray** for easy cleaning

**Foot pedal** adjusts height from 36" to 62"

# MAYO STANDS

## THUMB CONTROL MAYO STANDS

Single post mayo stand with thumb control button. Removable tray for easy cleaning. Stainless steel thumb control adjusts height from 36" to 62". Low profile feet slide easily under O.R. Table and hold stand in place. Constructed of #304 stainless steel and all seams are fully welded. Brass inserts offer easy height adjustment and 2" sayno2rust® composite casters provide ease of mobility. Ships fully assembled and ready to use.

- > Can be controlled from anywhere without compromising the drape
- > No need to be standing to adjust stand
- > Low profile design slides under OR table base

MYS760	12 5/8"W x 19 1/8"H Tray Size
MYS761	16 1/4"W x 21 1/4"H Tray Size

### MOBILE BASE

Mobile Base can be added to any Mayo stand. Just add "**-MB**" to the SKU#.

Removable **tray** for easy cleaning

**Thumb control** adjusts height from 36" to 62"

# MAYO STANDS

## KNOB CONTROL MAYO STAND

Fully stainless steel welded construction but more economical version. Knob control with no-lose thumb knob. Designed for low volume O.R.'s or physician's office. Removable tray for easy cleaning. Stainless steel thumb knob adjusts height from 36" to 62". Low profile feet slide easily under O.R. Table or exam table to hold stand in place. Constructed of #304 stainless steel and all seams are fully welded. Brass inserts offer easy height adjustment and 2" **sayno2rust** composite casters provide ease of mobility. Ships fully assembled and ready to use.

- > **More economical but still a SS Mayo Stand**
- > **No-lose thumb knob**
- > **Low profile design to slide under O.R. Table or exam table**

# MAYO STANDS

## STAINLESS STEEL VENTRIC STAND

MYS770	30"W x 26"H Top Size
MYS771	32"W x 30"H Top Size

Built because of the request for a larger mayo stand, our lift assist Mayo Stand is the daddy of all Mayo Stands. Featuring a larger top, Crank lift, and large base, this is a heavy duty mayo stand. Top is 16 gauge material and is extremely rigid so when you put heavier objects on it, it doesn't deflect. Height adjusts from 36" to 56". Has two locking casters to hold it in place during surgery but easy to transport when needed. All edges including the handle are smooth to prevent puncture of the drape. Fully welded stainless steel construction. Ships fully assembled.

- > **Ideal for large cases, especially ortho**
- > **Easy crank adjust to ergonomic height**
- > **Extra large surface and the needed stability**

new image coming

Large 4" **casters** with top brake for securing stand in place.

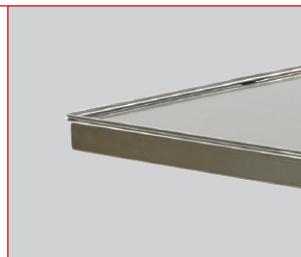

Extra large **top size** is over 50% larger than our largest mayo stand. Great for large cases, especially ortho.

new image coming

**Rail** around top to prevent instruments from rolling off top during surgery.

# MAYO STANDS

## ALUMINUM BASE MAYO STANDS

The Aluminum base mayo stand is great for physicians offices, emergency rooms or minor procedure rooms. Adjusts in height by a thumb knob below the top. Pole and top are stainless steel with aluminum base and twin rolling plastic casters.

- > **Economical design yet durable**
- > **Removable Tray for easy cleaning**
- > **Two tray sizes available**
- > **Solid stainless steel pole construction**
- > **2" twin wheel plastic casters**
- > **Knob operated lock adjusts height from 36"-62"**

MYS705	12 5/8"W x 19 1/8"H Tray Size
MYS706	16 1/4"W x 21 1/4"H Tray Size

## SPACE SAVING BASE MAYO STANDS

The weighted base mayo stand is great for physicians offices, emergency rooms or minor procedure rooms. Adjusts in height by a thumb knob below the top. Pole and top are stainless steel. Epoxy coated base available in 5 colors to help each department maintain their assets. Simply add a – to the part number and follow with the first letter of the color..

- > **Economical design yet durable**
- > **Removable Tray for easy cleaning**
- > **Two tray sizes available**
- > **Solid stainless steel pole construction**
- > **3" neoprene non-marking casters**
- > **Knob operated lock adjusts height from 36"-62"**

Standard base colors are:

MYS710	12 5/8"W x 19 1/8"H Tray Size
MYS711	16 1/4"W x 21 1/4"H Tray Size

## MAYO TRAY ATTACHMENT

Mayo tray attaches directly to O.R. table rail for convenience and to save space in the O.R. 5/8" mounting post attaches to the O.R. table rail with standard clark socket (sold separately). Height can be adjusted up to 26" above the table surface. 12 5/8" x 19 1/8" tray size.

MYS740	Mayo Tray Attachment

# ADDITIONAL O.R. EQUIPMENT

## STACKING INTERLOCKING STEP STOOL

Stacking interlocking step stools provide a great solution to varying heights of staff in the O.R. These stools can be used individually or together to create a platform. They also can be used stacked on top of each other to create higher platforms. They are constructed of 16 gauge #304 stainless steel with the same operating room specs as all our other products. Slip proof rubber top for safety. Nest together easily with integral lip to hold them in place. Top size is 12" x 18" and height is 5".

- > **Stack for easy storage**
- > **Great way to get everyone at the right height in the O.R.**

STS140

Stacking Interlocking Step Stool

## STAINLESS STEEL STEP STOOLS

Economic Stainless Steel Step Stool for use anywhere you need an extra few inches. Very inexpensive when you compare to strains from over reaching and/or falls from standing on incorrect step stools such as chairs or counters. Top platform measures 15" x 12" with anti-slip rubber tread. 8" platform height.

STS135

Stainless Steel Step Stool

STS136

Stainless Steel Step Stool with 34" Handle

## POWDER-COATED STEP STOOLS

Economic Powder-Coated Step Stool for use anywhere you need an extra few inches. Very inexpensive when you compare to strains from over reaching and/or falls from standing on incorrect step stools such as chairs or counters. Constructed of powder-coated steel. Top platform measures 14" x 10" with anti-slip rubber tread. 9" platform height.

Powder-Coated Step Stool with 34" Handle

## STEP STOOL CARRY CART

Carry Cart designed to hold 6 step stools. Ideal for storage and transport of step stools from one O.R. to another. Two locking casters secure cart in place. Fully welded stainless steel construction for easy cleaning.

- > **Easy to clean**
- > **Saves time in transport and stores as well**

STS145

Step Stool Carry Cart

# ADDITIONAL O.R. EQUIPMENT

## SURGICAL STOOLS

Surgical stool is a very important feature in the O.R. Physicians and nurses must be comfortable and yet have functional seating. This seating has 2 different 24" diameter aluminum base styles and different colors of 15 3/4" diameter vinyl tops. Rotation lock on seat keeps seat stable when needed. Designed specifically for the O.R. with waterfall seam for ease of cleaning. These stools have chrome 1/2" solid steel foot control for easy height adjustment from 19.5" to 26.5". Choose your base style and add your preferred backrest option.

- > High density fire resistant foam
- > Weight Capacity 300 lbs

Add optional Backrest: (Add "-B" to item #)

- > Optional adjustable back rest
- > Seat back dimensions: 15.75" x 9.5"

- > Overall Height w/Backrest: 35 1/2" to 42 1/2"

PYS850	Black Aluminum Base
PYS851	Brushed Aluminum Base

Customize your order: Item # + option

### Backrest if desired:

## RAIL LOCKING DROP-LATCH STYLE ARMBOARD

This tried and proven armboard design is a great fit wherever you need an armboard. Easily attaches to any US made operating table side rail.

- > **Armboard drops onto rail and locks securely to the rail with a knob.**
- > **Finger latch trigger on outer end of board allowing for 180 degree rotation**
- > **Durable steel casting for longevity**
- > **Armboard is made of 3/8" thick black phenolic and weighs a slim 4.5 pounds**
- > **Pad sold separately**
- > **Available in 24" or 26" long sizes**

## WIDTH EXTENDER AND PAD

The O.R. table Width Extender is designed to add width to your O.R. table for those patients that are a little wider, or for specific procedures. Integral posi-lock rail clamps and aluminum side rail make this unit all-in-one. Available in 4" or 8" widths.

- > **Equipped with integral "posi-lock" rail clamps and aluminum side rail**
- > **Available in 4" or 8" widths**
- > **Lock securely to existing siderail**
- > **Quick set-up**
- > **Pad sold separately**

OTA405	OR Table Width Extender 4"W x 20"H
OTA404	2"W Pad for Width Extender (MCM405)
OTA406	Bariatric OR Table Width Extender 8"W x 20"H
OTA407	2"W Pad for Bariatric Width Extender (MCM406)

Add the O.R. Width Extender in the best configuration to suit the requirements of each individual procedure. Shown here is an O.R. Table with OTA406 on either side of the torso and OTA405 on either side of the legs. The possibilities are endless!

# ACCESSORIES FOR O.R. TABLES

## ELBOW ARTHROSCOPY POSITIONER

This surgical arm prepper places the patients elbow in optimal positioning for elbow arthroscopy. Easy access to a tourniquet without interfering with the sterile field. Prevents slipping without the use of straps. Durable Stainless steel construction Includes pressure diffusion pad to reduce impact on nerves and tissue.

AMB450	Elbow Arthroscopy Positioner with Pad
AMB451	Replacement Pad only for MCM450

## WALL MOUNT ARMBOARD HOLDERS

Stainless steel rack holds armboards on the wall when not in use. Keeps them in a safe place to minimize damage and keep them where you need them. Constructed from 16 gauge stainless steel for easy cleaning and longevity. Will hold one armboard with standard 2" pad. Available for thicker pads by request.

- > **Keeps armboards from getting dirty**
- > **Easy to clean**

AMB445	Wall Mount Armboard Holder
AMB446	Wall Mount Bariatric Armboard Holder

## ARMBOARD PADS

Pads for armboards in your desired thickness and size. Standard foam with electrolyte cover like your O.R. table pads.

- > **Easy to clean**
- > **Available in any thickness to match your O.R. table**

AMB415	24"L x 2"H Armboard Pad
AMB416	26"L x 2"H Armboard Pad
AMB417	24"L x 3"H Armboard Pad
AMB418	26"L x 3"H Armboard Pad
AMB409	24"L x 4"H Armboard Pad
AMB419	26"L x 4"H Armboard Pad
AMB413	26"L x 10"W x 2"H Bariatric Armboard Pad
AMB443	21"L x 13.25"W x 2"H Extra Wide Armboard Pad

# ACCESSORIES FOR O.R. TABLES

## STAINLESS STEEL ELITE CLARK SOCKET

OTA159

Stainless Steel  
Elite Clark Socket

Designed to clip on to the rail anywhere, not just at ends or at rail slots. Holds flat blade accessories as well as 3/4" round bar accessories with the same clamp. Solid stainless steel construction for strength and durability. Compatible with all American Made O.R. tables.

- > **Two clamps in one**
- > **Clips onto rail anywhere**

## STAINLESS STEEL CLARK SOCKET

OTA160

Stainless Steel  
Clark Socket

Designed to hold round post accessories up to 11/16" diameter. Solid stainless steel construction for strength and durability. Compatible with American made O.R. Table rails. Clips onto rail at notches or rail ends.

## STAINLESS STEEL SIDE RAIL SOCKET

OTA162

Stainless Steel Side  
Rail Socket

Designed to hold flat blade accessories that measure 1" x 1/4". Solid stainless steel construction for strength and durability. Compatible with American made O.R. Table rails. Clips onto rail at rail ends.

## ALUMINUM SIDE RAIL SOCKET

OTA161

Aluminum Side  
Rail Socket

Designed to hold flat blade accessories that measure 1" x 1/4". Aluminum construction make this clamps lighter but yet durable. Compatible with American made O.R. Table rails. Clips onto rail at notches or rail ends.

## UNIVERSAL RAIL CLAMP

OTA163

Universal  
Rail Clamp

Designed to hold round and flat blade accessories. Aluminum construction makes this clamp lighter but yet durable. Compatible with American made O.R. Table rails. Clamps onto rail anywhere.

# ACCESSORIES FOR O.R. TABLES

## ANESTHESIA SHIELD

This Stainless Steel Anesthesia Shield is designed to protect the patient's face during surgery and also provides a frame for the anesthesia drape. Constructed of durable stainless steel, it attaches to the O.R. table rail with two side rail sockets (sold separately). Top surface is 18 1/4" x 22 1/4" and the side supports are 24"L. Side supports measure 1/8" x 1".

OTA107

Stainless Steel  
Anesthesia Shield

*Mounts to rail with two Side Rail Sockets (sold separately)*

SEE PAGE 32

## RIGID ANESTHESIA SCREEN

Designed to hold the drape for anesthesiologists during surgery. Stainless steel construction makes this a very durable anesthesia screen. Mounts to rail with clark socket (sold separately). Adjusts in height and position with clark socket.

OTA105

Rigid Anesthesia  
Screen

*Mounts to rail with Clark Socket (sold separately)*

SEE PAGE 32

## ADJUSTABLE ANESTHESIA SCREEN

Designed to hold the drape for anesthesiologists during surgery. Stainless steel construction makes this a very durable anesthesia screen. Mounts to rail with clark socket (sold separately). Adjusts in height from 16"–26" with integral clamp.

OTA101

Adjustable  
Anesthesia Screen

*Mounts to rail with Clark Socket (sold separately)*

SEE PAGE 32

## MALLEABLE ANESTHESIA SCREEN

Designed to hold the drape for anesthesiologists during surgery. Mounts to rail with two clark sockets (sold separately). Fully adjustable to easily set in desired position.

OTA106

Malleable  
Anesthesia Screen

*Mounts to rail with two Clark Socket (sold separately)*

SEE PAGE 32

## STAINLESS STEEL HOSE TREE

Constructed of durable stainless steel, this hose tree is sure to last a long time. Easy to clean stainless steel. Efficiently keeps tubes and hoses in place and organized during surgery.

OTA110

Stainless Steel  
Hose Tree

# ACCESSORIES FOR O.R. TABLES

## STAND ALONE LEG PREP

OTA154

Stand Alone Leg Prep

The Stand Alone Leg Prep is adjusted completely independent from the O.R. Table and the base can slide in under the O.R. Table if needed. Perfect for cases when surgery is performed on a stretcher or gurney instead. Upper portion swivels 360 degrees for correct positioning. Adjusts in height with a thumb knob from 40"-60". Supports the legs of patients who are up to 300 lbs.

## SINGLE LOOP LEG PREP WITH PAD

OTA157

Single Loop Leg Prep with Pad

Stainless steel 5/8" diameter mounting post fits into standard clark socket (sold separately). Adjusts in height up to 30". Wipe-clean polyurethane pad. Weight limit is 50 lbs.

OTA156

Replacement Pads Case of 12

*Fits into standard Clark Socket (sold separately)*

*SEE PAGE 32*

## CANDY CANE STIRRUP

OTA150

Candy Cane Stirrup

Constructed from 304 stainless steel for durability and longevity. Integral clamp allows height adjustment for 23"-41". Large 8" arc allows for additional leg clearance. Mounts to O.R. table rail with clark socket (sold separately). 1" wide cotton strap that conforms to 9" loops is included.

OTA151

Replacement Cotton Straps

*Mounts to rail with Clark Socket (sold separately)*

*SEE PAGE 32*

# ACCESSORIES FOR O.R. TABLES

## PICKET FENCE LEG HOLDER

The Picket Fence Leg Prep Unit efficiently preps both legs at once. It has a 5/8" diameter, stainless steel support bar with an easily adjustable height up to 30". The Picket Fence Leg Prep Unit is easy to clean. Attaches to O.R. Table rail with clark socket (sold separately).

OTA611

Picket Fence Leg Holder

Mounts to rail with Clark Socket (sold separately)

SEE PAGE 32

## DOUBLE PICKET FENCE LEG HOLDER

This double picket fence leg prepper efficiently preps both legs at once. Double flat blade supports bring added stability to this unit. Can adjust in height up to 30". Top is covered in rubber and lower supports are stainless steel making it easy to clean. Attaches to O.R. table rail with two side rail clamps (sold separately).

OTA610

Double Picket Fence Leg Holder

Attaches to two side rail clamps (sold separately)

SEE PAGE 32

## TKR SUPPORT WITH PAD

Helps support legs for total knee replacement procedures. Constructed of stainless steel and polyoxy-methylene for ultimate support. Top portion is radiolucent. 5/8" diameter stainless steel post fits into clark socket (sold separately). Black pad included.

OTA612

TKR Support with Pad

OTA613

Replacement Pads Case of 12

Fits into Clark Socket (sold separately)

SEE PAGE 32

# ACCESSORIES FOR O.R. TABLES

## MAYO TRAY ATTACHMENT

Mayo tray attaches directly to O.R. table rail for convenience and to save space in the O.R. 5/8" mounting post attaches to the O.R. table rail with standard clark socket (sold separately). Height can be adjusted up to 26" above the table surface. 12 5/8" x 19 1/8" tray size.

MYS740

Mayo Tray  
Attachment

*Mounts to rail with Clark Socket  
(sold separately)*

SEE PAGE 32

## INSTA-RAIL

Quickly and easily attach an O.R. table rail to any surface. An imaging table or an arm/hand table or any other surface up to 1 1/2" thick. Stainless steel rail is 6" long and standard American made rail dimensions. Holds any clamp that is compatible with American made O.R. table rails.

OTA168

Insta-Rail

## SIDE RAIL EXTENSION

Need to have a little longer side rail? Look no further than this side rail extension. Clamps on to the O.R. table rail and extends it 6". Compatible with any American made O.R. table rail.

OTA167

Side Rail Extension

## ACCESSORY AND STIRRUP CARRY CART

Cart designed specifically for the storage and transport of stirrups and other O.R. table accessories. Accessory rail to hold clamps and hooks hold most types of stirrups. Other accessories can be stored in lower tray. Constructed of 16 gauge stainless steel for easy cleaning.

OTA148

Accessory and  
Stirrup Carry Cart

- > **Makes it easy to store and transport stirrups**
- > **Keeps clamps and stirrups together and clean**

# ARM & HAND SURGERY TABLES

Surfaces that attach to the operating room table or stretcher for performing arm and hand surgeries.

Improving life.

# ARM & HAND SURGERY TABLES

## ARM & HAND TABLES WITHOUT LEG SUPPORT

### FREE ACCESS ARM & HAND TABLE

This one-of-a-kind shape will make any surgeon smile. It allows easy access to their work with its narrow design and no leg to obstruct c-arm or X-ray procedures. Radiolucent center allows c-arm access. Clamps securely to the O.R. table rail with our integral posi-lock clamps. No extra clamps needed or to get misplaced. Our most compact arm/hand surgery table with 12" x 30" operating surface. Great for many procedures including fistula, angiogram and angioplasty.

AHT301	Free Access Arm and Hand Table with 2" Pad
AHT302	Replacement 2" Pad

### MINOR PROCEDURE ARM & HAND TABLE

- Phenolic material for longevity and durability
- 15" x 24" Minor Procedure size
- Integral Clamps don't get lost and make it easy to clamp to the O.R. Table side rail
- No obstruction to C-arm access
- 2" pad included, other thicknesses available to suit your application.
- Facilitates arm or hand surgery on Any US Made O.R. Table

AHT333	Minor Procedure Arm and Hand Table with 2" Pad
AHT334	Replacement 2" Pad

### CARPAL ARM & HAND TABLE

This rectangle shaped arm/hand table offers superior rigidity without the obstruction of a lower leg. Radiolucent center portion allows c-arm access. Clamps securely to the O.R. table rail with our integral posi-lock clamps. No extra clamps needed or to get misplaced. Full size 18" x 32" operating surface and plenty of lower support. This is the ultimate choice for carpal tunnel procedures and many others.

AHT330	Carpal Arm and Hand Table with 2" Pad
AHT312	Replacement 2" Pad

### CARBON FIBER RECTANGLE ARM & HAND TABLE

This rectangle shaped arm/hand table made of lightweight but durable carbon fiber. Completely radiolucent for excellent C-arm image. Clamps securely to the O.R. table rail with our integral posi-lock clamps. No extra clamps needed or to get misplaced. Full size 18" x 32" operating surface but yet only weighs a mere 9 lbs. Perfect choice for minor arm/hand procedures.

AHT318	Carbon Fiber Rectangle Arm and Hand Table with 2" Pad
AHT312	Replacement 2" Pad

# ARM & HAND SURGERY TABLES

## ARM & HAND TABLES WITH LEG SUPPORTS THAT CLAMP TO O.R. TABLE RAIL

### RECTANGLE PHENOLIC ARM & HAND TABLES

This rectangle arm/hand table is constructed of durable phenolic like the surface of the O.R. table. It clamps securely to the O.R. table rail and has a drop down leg for added support. Radiolucent center portion allows c-arm access. Clamps securely to the O.R. table rail with our integral posi-lock clamps. No extra clamps needed or to get misplaced. Full size 18" x 32" operating surface and plenty of lower support. Leg adjusts up to 12" to meet the ideal height for the surgeon.

AHT310	Rectangle Phenolic Arm and Hand Table, Single Foot, with 2" Pad
AHT311	Rectangle Phenolic Arm and Hand Table, Double Foot, with 2" Pad
AHT312	Replacement 2" Pad

### RECTANGLE CARBON FIBER ARM & HAND TABLES

Constructed of durable and lightweight carbon fiber, this table has superior c-arm image as well as being very lightweight, but is the strongest table available. It clamps securely to the O.R. table rail and has a drop down leg for added support. Radiolucent center portion allows c-arm access. Clamps securely to the O.R. table rail with our integral posi-lock clamps. No extra clamps needed or to get misplaced. Full size 18" x 32" operating surface and plenty of lower support. Leg adjusts up to 12" to meet the ideal height for the surgeon.

AHT315	Rectangle Carbon Fiber Arm and Hand Table, Single Foot, with 2" Pad
AHT316	Rectangle Carbon Fiber Arm and Hand Table, Double Foot, with 2" Pad
AHT312	Replacement 2" Pad

### HOURGLASS PHENOLIC ARM & HAND TABLES

This hourglass shaped arm/hand table is constructed of durable phenolic like the surface of the O.R. table. The hourglass shape extends to 24" width to provide wrist support for the surgeon. It clamps securely to the O.R. table rail and has a drop down leg for added support. Radiolucent center portion allows c-arm access. Clamps securely to the O.R. table rail with our integral posi-lock clamps. No extra clamps needed or to get misplaced. 15" x 32" operating surface and plenty of lower support. Leg adjusts up to 12" to meet the ideal height for the surgeon.

AHT320	Hourglass Phenolic Arm and Hand Table, Single Foot, with 2" Pad
AHT321	Hourglass Phenolic Arm and Hand Table, Double Foot, with 2" Pad
AHT322	Replacement 2" Pad

### HOURGLASS CARBON FIBER ARM & HAND TABLES

Constructed of durable and lightweight carbon fiber, this table has superior c-arm image as well as being very lightweight, but is the strongest table available. The hourglass shape extends to 24" width to provide wrist support for the surgeon. It clamps securely to the O.R. table rail and has a drop down leg for added support. Radiolucent center portion allows c-arm access. Clamps securely to the O.R. table rail with our integral posi-lock clamps. No extra clamps needed or to get misplaced. Full size 15" x 32" operating surface and plenty of lower support. Leg adjusts up to 12" to meet the ideal height for the surgeon.

AHT325	Hourglass Carbon Fiber Arm and Hand Table, Single Foot, with 2" Pad
AHT326	Hourglass Carbon Fiber Arm and Hand Table, Double Foot, with 2" Pad
AHT322	Replacement 2" Pad

# ARM & HAND SURGERY TABLES

## ARM & HAND TABLES WITH OUTER LEG THAT SLIDE UNDER THE PAD

As Ambulatory Surgery Centers become more common in the medical field, many surgeons wish to perform Arm/Hand surgery on a Stretcher or Stretcher Chair. We have an extended range of Arm & Hand tables that slide under the pad of these units and are held in place by the weight of the patient. All tables include 2" thick standard pad.

### RECTANGLE PHENOLIC UNDER PAD ARM & HAND TABLES

Our most popular size and shape of Arm/Hand table is the rectangle. Large 18" x 32" operating surface with excellent C-arm capabilities make this a first choice. Phenolic is our most popular material for arm/hand surgery tables. Durable with good C-arm capabilities it makes a great table. Available with drop down leg and either single or double foot.

AHT335	Phenolic, Rectangle Under Pad Arm and Hand Table with Single Foot
AHT336	Phenolic, Rectangle Under Pad Arm and Hand Table with Double Foot

### HOURLASS PHENOLIC UNDER PAD ARM & HAND TABLES

This hourglass shaped arm/hand table is constructed of durable phenolic like the surface of the O.R. table. The hourglass shape extends to 24" width to provide wrist support for the surgeon. It slides easily under the pad and is held in place by the patients weight. Radiolucent center portion allows c-arm access. 15" x 32" operating surface and plenty of lower support. Leg adjusts up to 12" to meet the ideal height for the surgeon.

# ARM & HAND SURGERY TABLES

## ARM & HAND TABLES WITH MOBILE BASE

Arm & hand tables with Mobile bases offer the best of versatility. Able to roll from room to room without the nurses having to lift them is a great benefit. Adjusts in height from 30"-42". They come equipped with two locking casters and two swivel casters. Several different shape and size options of tops ensure your needs are met.

MCM310-MB  
Underside View

### RECTANGLE ARM & HAND TABLES WITH MOBILE BASE

Our most popular size and shape of Arm/Hand table is the rectangle. Large 18" x 32" operating surface with excellent c-arm capabilities make this a first choice. Several different options are available to secure this unit to the table or stretcher.

**Roll Up:** This option simply rolls up to the O.R. table or stretcher and is held in place by the locking casters. Works for performing surgery on O.R. table, stretcher and/or stretcher chair.

**Clamps:** Includes our integral posi-lock clamps to ensure that the table remains securely attached to the O.R. table during surgery. A great option if you are performing surgery strictly on an O.R. table.

**Underpad:** Has a longer portion that can slide under the pad of the O.R. table or stretcher and is held in place by the patients weight. Works for performing surgery on O.R. table, stretcher and/or stretcher chair.

AHT310-MB	Rectangle Arm and Hand Table with Mobile Base, 2" Pad Included

# IV POLES & ACCESSORIES

## 5 LEG SPIDER IV POLES

This 5 leg spider base IV Pole was designed to maximize stability. Base is 22" diameter and has a low center of gravity with enhanced weight for added stability. 3" scuff resistant casters are standard for ease of mobility. Height adjusts from 50"-92" with no-lose thumb knob. Available in chrome finish or durable stainless steel finish. Different top options are available to meet your needs. Designed to hold several infusion pumps. Standard epoxy coated base color is charcoal.

Colored bases are available at no extra charge to help each department maintain their assets. Simply add a – to the part number and follow with the first letter of the color.

**Standard colors are:**

- CHARCOAL
- R: RED
- B: BLUE
- Y: YELLOW
- G: GREEN

# IV POLES & ACCESSORIES

## 6 LEG STAINLESS STEEL SPIDER BASE IV POLES

This IV Pole is completely made of stainless steel to inhibit any type of corrosion or rust. 24" Diameter Base is heavy duty weighted stainless steel with low center of gravity. 1" stainless steel pole adjust from 50"-92" with no-lose thumb knob. Available with any of our 4 top options. Premium sealed ball bearing casters make this pole easy to maneuver and very stable.

- > Premium casters
- > Fully welded stainless steel construction

IVP295-2	SS IV Pole W/Thumb Knob, 2 Hook Top, 6 Leg SS Spider Base W/3" Ball Bearing Casters
IVP295	SS IV Pole W/Thumb Knob, 4 Hook Top, 6 Leg SS Spider Base W/3" Ball Bearing Casters
IVP295-6	SS IV Pole W/Thumb Knob, 6 Hook Top, 6 Leg SS Spider Base W/3" Ball Bearing Casters
IVP295-RT	SS IV Pole W/Thumb Knob, 8 Hook Rake-Top, 6 Leg SS Spider Base W/3" Ball Bearing Casters

## DOUBLE IV POLE WITH STEERING WHEEL & TRAY

This IV Pole is designed for areas where several infusion pumps are needed such as ICU. Double poles make more spots to hang pumps and the two four hook tops make it easier to keep IV lines organized. Height adjusts from 85"-110". Our 6 Leg spider base with 3" ball bearing casters make this a very stable and easy to move pole. Full circle steering wheel makes it easy to maneuver from any side. Complete pole construction is 304 grade stainless steel. Removable plastic tray makes a great place for storage and a spot to set things during bag changes and setup.

IVP286	Double IV Pole with Steering Wheel and Tray
--------	---

## 5 LEG FOOT CONTROL IV POLE

Fully welded stainless steel constructed IV Pole with 22" diameter 5 Leg spider base. Foot control height adjustment leaves hands free to adjust pole, IV Tubing and bags. Our 2" swivel **sayno2rust**® casters make moving easy. Bar to protect foot pedal from getting bumped. 4 Hook ram's horn style top. 1.25" diameter pole adjusts in height from 52"-94". Easy to raise, simply by lifting pole to desired height. Ships fully assembled-no further assembly required.

IVP290	5 Leg Foot Control IV Pole
--------	----------------------------

Upgraded casters included.

**sayno2rust**®

## RIGID IV POLE

An IV Pole that attaches directly to the O.R. Table rail. Designed to hold IV near the point of use for convenience as well as to save space in the O.R. Constructed of durable stainless steel. Hook design allows bags to be changed rapidly. Pole measures 27 1/2" high. 1/2" diameter mounting post attaches to O.R. table rail with standard clark socket (sold separately).

IVP215	Rigid IV Pole

## LIFT ASSIST IV POLE

An IV Pole designed for the nurse! Eliminates lift bags up high and straining backs and shoulders. Simply load the pole up with bags and turn the crank to raise. Adjusts in height from 56"-96" just by turning the crank. Large 6 leg base adds the needed stability. 3" scuff resistant casters provide unmatched maneuverability. Base post is 2" square stainless steel tube with upper extension tube of 1 1/4" stainless steel tube. No electric motors or hydraulic pumps to replace. Available with 4-hook, 8-hook or 28-hook top.

IVP251	4 Hook Stainless Steel Lift Assist IV Pole
IVP252	8 Hook Stainless Steel Lift Assist IV Pole
IVP253	28 Hook Stainless Steel Lift Assist IV Pole

## UNI-POLE

This IV pole attaches to any round or square tube up to 1 1/4". Universal clamp design allows 180 degree rotation to set the pole wherever you need it. Adjust in height with integral clamp. Constructed of stainless steel for ease of cleaning. No additional clamps needed.

IVP216	Uni-Pole (adjust from 18"-36")
IVP216-4	Uni-Pole with 4 hook top (adjust from 18"-36")

## IV TOWBAR

Constructed of stainless steel for transport of IV Poles, this towbar can transport two IV Poles at the same time. It can also drop into the hole on most stretchers and wheelchairs. Adjusts from 20"-30".

IVP240	Telescoping IV Towbar
IVP245	Universal Clamp with Hole for Attaching Towbar

## UNIVERSAL CLAMP FOR IV POLE ACCESSORIES

This aluminum clamp attaches most of our IV pole accessories to the IV Pole. It will also clamp to tables, wheelchairs, carts or any other round or square tube up to 1 1/2" in diameter.

IVP231	Universal Clamp for IV Pole Accessories
--------	--

# IV POLES & ACCESSORIES

## UNIVERSAL CLAMP FOR LIFT ASSIST IV POLE

IVP257

Universal Clamp for Lift-Assist IV Pole

This clamp attaches most of our IV pole accessories to the lift assist IV Pole. Works much the same as our MCM231 but for the Lift Assist IV Pole. Makes any accessory work with the Lift Assist Pole.

## POWER STRIP FOR IV POLE

IVP232

Power Strip for IV Pole

Fit out with 6 Hospital Grade Receptacles and an integral clamp, this is a great IV Pole Power Strip. Measures 5.65"H x 5.28"W x 3.27"D. Meets UL-1363-A for use in patient areas. Fits IV pole diameter 7/8"-1 1/2". 15 foot hospital grade power cord attached.

## ADD-A-TRAY FOR IV POLE

IVP260

Add-A-Tray for IV Pole

This Stainless Steel Tray measures 13" x 9" and attaches to the IV Pole with our Universal Clamp MCM231(sold separately). Excellent spot to put small instruments or items during set up. Stainless steel construction makes it easy to clean. With our universal clamp can easily mount to tables, mayo stands or carts.

Mounts with Universal Clamp *(sold separately)*

**SEE PAGE 53**

## INFUSION PUMP FRAME FOR IV POLE

IVP259

Infusion Pump Frame for IV Pole

This frame attaches to an IV Pole with two universal clamps (sold separately). Designed to hold up to 4 infusion pumps. 1" tubular frame in chrome construction. Measures 17 3/4" x 27 3/4".

Mounts with 2 Universal Clamps *(sold separately)*

**SEE PAGE 53**

## OXYGEN TANK HOLDER FOR IV POLE

IVP229

Oxygen Tank Holder for IV Poles

Heavy duty stainless steel construction for holding Oxygen tanks on IV poles or anywhere the universal clamp can attach to. Attaches with 1 universal clamp (sold separately). Accommodates most styles of oxygen tanks up to 4 7/8" diameter.

Mounts with Universal Clamp *(sold separately)*

**SEE PAGE 53**

# IV POLES & ACCESSORIES

## WIRE BASKET FOR IV POLE

Wire basket attaches to the IV Poles or any other tube with universal clamp (sold separately). Opening is 8" x 12". Great for storage of just about anything and keeps it nearby.

IVP217	Wire Basket for IV pole
--------	-------------------------

Mounts with Universal Clamp (sold separately)

SEE PAGE 53

## STAT HANGER FOR IV POLE

An extra set of IV Pole hooks wherever you need them. All welded stainless steel construction. Mounts with universal clamp (sold separately). Distance between hooks is 9".

IVP200	Stat Hanger for IV Pole
--------	-------------------------

Mounts with Universal Clamp (sold separately)

SEE PAGE 53

## URINAL BAG HOOK

Stainless steel hook designed to hold the foley catheter bag lower on the IV Pole. Clamps directly to 1" pole. No other clamps needed.

IVP258	Urinal Bag Hook
--------	-----------------

## STEERING WHEEL & PATIENT TRAY FOR IV POLE

16" diameter epoxy coated steering wheel attaches to 1" IV Pole. Makes it easy to steer pole from any side. Gives patient added stability in transport. Large diameter makes it easy for patient and caregiver to hold onto pole. Can be adjusted to any height. Easy to clean, plastic patient tray snaps easily into triangle on steering wheel.

IVP230	Steering Wheel
IVP243	Patient Tray

## HAND SANITIZER HOLDER FOR IV POLE

Keep the hand sanitizer handy on your IV Pole or wheelchair. Attaches to pretty much any surface without any other clamps needed. Easily adjusts to various sizes of hand sanitizer bottles. Durable plastic construction.
